Dear Dr. Larson:

Enclosed for your information are copies of the reports of the FTC's three scientific consultants assessing the technical materials submitted by Philip Morris, Brown & Williamson, and the other tobacco companies in connection with the investigation of the Barclay filter. As you will see, the experts are unanimously in strong support of the Philip Morris position.

Our client is delighted with this result, and as is clear from the substance of the comments, your assistance contributed substantially.

Best regards.

Sincerely,

Hadrian R. Katz
